Experience

American Greetings

Interactive Web Developer

Work on solo and group projects across various departments, such as art and creative, to develop interactive web-based greeting cards using HTML, CSS, JavaScript, and various JavaScript frameworks and engines, such as Pixi.js, Three.js, and GSAP.

Cleveland, OH

Jan 2018 to Current

Absentia Virtual Reality Private limited

Software Developer

Developed various tools to speed up and make the game development and animation process easier, and helped develop existing Unity games in C#. Worked on solo projects and in 2-6 member teams.

Pittsburgh, PA

May 2017 to Aug 2017

Aewtbe

Unity Developer

Programmed a 2D platformer which featured swimming, shooting, and tank-driving with C# and Unity. Worked with my client to integrate his design choices as well as art and audio from other freelancers.

Pittsburgh, PA

Jun 2016 to Dec 2016

Lergent Developers

Educational Game Developer

Worked on an educational training game in Unity and later helped port this to the web with BabylonJS.

Pittsburgh, PA

Nov 2015 to Mar 2016

TechRiver

Web Developer

Used HTML and CSS to design the front-end for a mobile scavenger hunt application.

Pittsburgh, PA

Jun 2013 to Aug 2013

Projects

Space Voyager

- Solo developer for a web-based space shooter featuring an open-level environment.
- Built with HTML, CSS, JavaScript, and the Pixi.js rendering engine.
- Efficient, well-planned code using clear OOP principles.
- Used Git for version control.
- Composed original soundtrack.

Nov 2017 to Dec 2017

Autonomous Agent Simulation

- Solo developer for a fantasy environment with agents that move and behave in believable ways.
- Studied and implemented Craig Reynold's steering algorithms, such as path following, wandering, and flocking.
- Implemented custom collision detection in the Unity engine.

Nov 2017 to Dec 2017

Automaestro

- Developed music application that allows anyone to play music on a virtual piano without worrying about playing the correct notes.
- Published to Windows Store.
- Initially developed in a group of three at a 24 hour hackathon, and was a primary programmer for the application framework in Unity and C#.
- Solo developer on the project after the hackathon - coded, developed, and expanded the application and converted it to a UWP app.

Feb 2017 to Apr 2017

Expand

- Solo developer for an Android game where the user controls a planet and tries to save it from being destroyed by asteroids.
- Created with C# and Unity.
- Integrated in-app purchases and advertisements from AdMob.

Feb 2016 to Feb 2016

Awards

HeroJam · Best Overall Game

- Developed FPS: Finite Platform Shooter on a two-person team. This is a first person puzzle game where the player must place platforms to reach the goal.
- Developed with C# and Unity.
- Composed music for the game with FL Studio.
- Responsible for 95% of the programming.
- Used version control to collaborate and develop efficiently.

Apr 2017

Upwork · Top Rated Freelancer

- Awarded Top Rated status on Upwork for delivering consistent, polished results to clients for game development jobs.

Jul 2017
